

# POWER PANEL

POWERED BY  
HALTECH

The Power Panel will focus on expanding mentorship and strategic connection opportunities for women owned technology and innovation companies in Southwestern Ontario. Nominated companies from Southwestern Ontario RICs, including Haltech Regional Innovation Centre, Innovation Guelph, WEtech Alliance, Innovation Factory, Innovate Niagara, and TechAlliance, will be in a late validation or efficiency/s-scale stage of their business. Participating companies will have the opportunity to accelerate their skills development and be able to leverage high powered, influential mentors from outside of their usual networks. This will be particularly important for women identifying how to capture growth opportunities in new or adjacent markets as the economy recovers post COVID.

The program is a joint collaboration between Haltech Regional Innovation Centre, Innovation Guelph and WEtech Alliance to benefit RIC associated Women Owned companies in Southwestern Ontario.

For information about presenting your company, contact your regional innovation center or [info@haltech.ca](mailto:info@haltech.ca). If you are interested in being a panel mentor, please contact [info@haltech.ca](mailto:info@haltech.ca). Four Panels will take place between November 2021 and March 2021.

## About Haltech

Whatever stage a company is in, Haltech's staff and team of experienced advisors are passionate about bringing the right education, advisory services, and strategic connections to develop and grow innovation-oriented businesses to the next stage. From startups to large global corporations, Haltech is available to help you advance your technology-based innovations to market or to scale up your business. Through education, advisory services and strategic connections, Haltech enables start-up and scaleup technology innovators and entrepreneurs to accelerate their growth and navigate the path to profit.

## About Innovation Guelph

Innovation Guelph's agile approach to supporting entrepreneurs and businesses reflects the evolving needs of our clients. We continue to provide mentorship and business support programs and services to help innovative enterprises start, grow and thrive.

## About WEtech Alliance

WEtech Alliance's Vision is to play a lead role in developing a sustainable and diverse economy that attracts and retains top talent, business and investment. We will work together with partners to build a region that supports innovative businesses from Windsor-Essex and Chatham-Kent and around the world to grow locally and scale globally.
